Northampton Saints Partnership

At MAA, we're proud to be an Elite Community Partner School with the Northampton Saints. As part of this exciting partnership, the Saints run our after-school rugby club every Monday and Friday from 3:00–4:30pm, alongside Mr Milne. This collaboration plays a key role in developing not only the strength of our school rugby teams but also the personal growth of our student athletes. The skills, discipline, and values they gain through this programme are carried forward into their club rugby and beyond.

We have also had both previous and current students involved in the Saints PDP Programme, and as a partner school, we are able to nominate students who we believe are ready to take the next step into the programme. In addition, we regularly participate in Northampton Saints boys' and girls' tournaments, providing our students with valuable competitive experiences and further opportunities to develop.
